Abstract: The patent discloses various solar cell compositions that generally include a central substrate, along with one or more conductive layers, antireflection layers, and passivation layers, as well as electrodes. It describes...

## **2. Request**

In light of the foregoing, we request that your client (i) provide a detailed claim chart identifying each accused product or service and mapping every limitation of each asserted claim, (ii) identify any prior art known to your client, including any references cited during prosecution or reexamination, and (iii) substantiate the basis for any damages or licensing demand. We are

prepared to discuss the matter further once we have received and reviewed the foregoing.

Sincerely,
