Re: U.S. Patent No. EP2449782B1 — Response to Assertion of Infringement

Dear Counsel,

We acknowledge receipt of your correspondence asserting infringement of U.S. Patent No. EP2449782B1 (the "EP2449782B1 Patent"). After preliminary review, we have substantial concerns about the validity, enforceability, and scope of the asserted claims, summarized below. We reserve all rights and defenses.

1. Subject Patent — Summary

As a technical patent analyst, here is a concise summary of patent EP2449782B1.

It is important to note that EP2449782B1 is a European patent, not a United States patent. Searches of the United States Patent and Trademark Office (USPTO) database will not yield direct results for this identifier. The information below is sourced from international patent databases.

No records were found for EP2449782B1 in the 2026 dockets of the U.S. Court of Appeals for the Federal Circuit (CAFC). A search for a European patent number in a U.S. court docket is not expected to produce results unless a corresponding U.S. patent is involved in litigation.

2. Request

In light of the foregoing, we request that your client (i) provide a detailed claim chart identifying each accused product or service and mapping every limitation of each asserted claim, (ii) identify any prior art known to your client, including any references cited during prosecution or reexamination, and (iii) substantiate the basis for any damages or licensing demand. We are prepared to discuss the matter further once we have received and reviewed the foregoing.

Sincerely,
